

The East Coast's number one independent premium dental care provider.

Our custom fit mouthguards are used by schools and sports clubs nationwide.

Ordering your Mouth Guards couldn't be easier.

Westwood mouth guards are manufactured from two layers of PVA material, vacuum formed over a model of the patient's mouth.

All our mouth guards come with a name insert to prevent confusion and are supplied with its own storage case.

The mouth guard is made from a tough impact absorbing polymer which will support the teeth and protect the gums. Available in a combination of colours and special effects.

Can be manufactured to be worn over any fixed appliance. Ultimate protection of your cheeks, gums and teeth to reduce injury. Speech and breathing is not impeded with durability so that they last long without deforming.

Our services include:

-  Perfect fit to your mouth
-  Patient name moulded between two layers
-  Breathing isn't restricted
-  Ideal for High Impact Sports
-  Available in many colours
-  Special Flags and Motifs
-  Other effects are available
-  Storage case provided
-  CE marked with Conformity Form
