LABORATORY LTD

## Dentures

Westwood Laboratory can offer a complete service of denture manufacture. Our service offers a full range of dentures for all budgets. There are four levels of choice: Standard, Independent, Private and Private Precision. Good quality teeth are used for our standard level rising to exceptional standards on our private options. Using the latest techniques of injection processing (Ivoclar Ivobase). A product which is one of the best on the market, coupled with Ivoclar teeth guaranteed for five years, offering the peace of mind for your patients.

With additional services of soft linings, clear palate high impact acrylic, contouring/stipple and colour tone staining of gums. All available at extra costs.

### **Denture service of four different levels.**

- **Standard**
- **Independent**
- **Private**
- **Private Precision  
(Injected moulded dentures)**
